PROFESSIONAL SUMMARY

Detail-oriented 3D CAD Engineering Modeler and Detailer with hands-on experience in SolidWorks, AutoCAD, and SketchUp for mechanical and construction-related projects. Skilled in transforming technical requirements into precise 3D models, assemblies, and production-ready drawings. Experienced in coordinating with clients and project teams to ensure accuracy, functionality, and compliance with specifications. Committed to delivering structured, high-quality design work with efficiency and attention to detail.

PROFESSIONAL EXPERIENCE

Organization

JIFAS Engineering Services | Dasmarinas, Cavite | Technical Representative / Proposals & Design Engineer (Mechanical)

January 2025 – Present

- Translate client technical requirements into actionable project plans and structured workflows.
- Coordinate with engineers, stakeholders, and clients to ensure alignment on deliverables and timelines.
- Analyze and optimize 3D designs for material selection and machine operation to ensure production viability.
- Support business development efforts through presentations, documentation, and client communication.
- Maintain organized records, reports, and documentation to streamline operations.
- Developed comprehensive costing models, including material procurement, labor, mobilization, and taxes, to generate official business quotations.
- Manage supplier relationships and procurement to ensure project cost-efficiency

ZAYIN Engineering Services | Imus, Cavite | Company Representative

April 2024 – December 2024

- Lead site inspections, measurements, and technical assessments to validate client requirements and project feasibility
- Evaluated project requirements and selected qualified personnel based on skills, availability, and project scope.
- Prepare detailed cost estimates and project quotations, including materials, labor, and applicable taxes
- Managed administrative operations, scheduling, and internal coordination.
- Developed marketing strategies and conducted outreach to partner companies.
- Handled digital promotion and client communication through company platforms.

CEREHE Engineering Works | Dasmarinas, Cavite | Mechanical Draftsman

March 2023 – January 2024

- Developed detailed technical drawings and 3D models using AutoCAD and SolidWorks.
- Collaborated with engineering teams to ensure accuracy and adherence to specifications.
- Assisted in documentation management and workflow organization.
- Supported administrative and coordination tasks within project teams.

Education

Technological University of the Philippines – Cavite | Dasmariñas,
Cavite Bachelor of Science in Mechanical Engineering | Aug 2019 – Sept
2023

Philippine Christian University – Cavite | Dasmariñas, Cavite
Senior High – Science, Technology, Engineering, and Mathematics Strand | July 2017 – Aug 2019

SELECTED PROJECTS

Advanced Multibody Modeling Implementation | SolidWorks

- Utilized advanced part modeling techniques to design complex mechanical assemblies, improving design accuracy.

Process Optimization Framework | Lean Six Sigma

- Applied the DMAIC framework to identify process waste and propose data-driven solutions for operational performance.

Residential Kitchen Design & Visualization | SketchUp

- Designed a modern kitchen layout focused on spatial flow and aesthetics; delivered high-fidelity 3D renderings to secure client approval.

CERTIFICATIONS & TRAINING

- Regional Cooperation & Mobility for Youth Skills Development | Jul 2026
- Construction Project Cost Estimation and Fundamentals of Bluebeam Revu A Two-Day AEC Webinar | Jun 2026
- SolidWorks Installation, Basics and User Interface, and Introduction to Sketching | May 2026
- Lean Six Sigma Yellow Belt | Oct 2025
- Market Research for Product Management (Udemy/MTF) | Dec 2025
- Business Administration Foundation Program | Dec 2025
- SolidWorks Advanced Training: Part and Multibody Modeling | Nov 2025
- Diploma in Strategic Supply Chain Management | Nov 2025
- Lean Six Sigma White Belt | Jan 2023

SKILLS

- **Engineering & Design:** SolidWorks (Advanced), AutoCAD, 3D Modeling, CAD.
- **Process Improvement:** Lean Six Sigma (Yellow Belt), DMAIC Framework, Waste Reduction.
- **Business & Operations:** Strategic Supply Chain Management, Market Research, Sales Administration, Microsoft Office.
- **Creative Media:** Canva (Graphic Design), Premiere Pro, Blender, CapCut (Video Editing).
- **Architectural Visualization:** Developed high-fidelity 3D kitchen renderings using SketchUp, integrating aesthetic design with functional spatial planning to secure client approval for residential projects.

CORE COMPETENCIES

Talent & Workforce Coordination

Workforce planning | Personnel evaluation | Skills-based deployment | Role assignment | Scheduling

Research & Communication

Online research | Candidate evaluation | Email communication | Client coordination | Digital outreach

Administrative & Business Support

Documentation management | Reporting | Business planning | Marketing coordination

Technical & Digital Tools

Google Workspace | Microsoft Office | LinkedIn | Social Media Platforms | SolidWorks | AutoCAD
